129 boris belitskiy replying to listeners' letter about space
transportation, noting until now, using liquid fueled rockets
payloads have been small but new developments are producing a
greater cargo capacity on space transport vehicles, maintaining
rockets are consuming less fuel which makes them more cost
effective and has led to efficient operation of such orbital
stations as saljut-7, pointing out in future it is hoped to
utilize nuclear energy and electric rocket engines. (4 min:
